STAPA METALLUX 1520 Aluminium Paste

Version	Revision Date:	SDS Number:	Print Date: 25.02.2022
2.0	07.12.2019	102000030584	Date of first issue: 27.09.2018

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

 Trade name
 :
 STAPA METALLUX 1520 Aluminium Paste

 Product code
 :
 053039G60

1.2 Relevant identified uses of the substance or mixture and uses advised against

This information is not available.

1.3 Details of the supplier of the safety data sheet

Company	:	ECKART GmbH Guentersthal 4 91235 Hartenstein
Telephone	:	+499152770
Telefax	:	+499152777008
E-mail address of person responsible for the SDS	:	msds.eckart@altana.com

1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture Classification (REGULATION (EC) No 1272/2008) Long-term (chronic) aquatic hazard, H412: Harmful to aquatic life with long lasting Category 3 effects. 2.2 Label elements Labelling (REGULATION (EC) No 1272/2008) Hazard statements : H412 Harmful to aquatic life with long lasting effects. Prevention: Precautionary statements : P273 Avoid release to the environment. Disposal: P501 Dispose of contents/ container to an approved waste disposal plant.

according to Regulation (EC) No. 1907/2006

STAPA METALLUX 1520 Aluminium Paste

Version	Revision Date:	SDS Number:	Print Date: 25.02.2022
2.0	07.12.2019	102000030584	Date of first issue: 27.09.2018

2.3 Other hazards

Combustible Solids

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Hazardous components

Chemical name	CAS-No. EC-No. Index-No. Registration number	Classification REGULATION (EC) No 1272/2008	Concentration (% w/w)
aluminium powder (stabilised)	7429-90-5 231-072-3 01-2119529243-45	Flam. Sol. 1; H228	>= 50 - <= 100
Naphtha (petroleum), hydrotreated heavy; Low boiling point ydrogen treated naphtha	64742-48-9 918-481-9 01-2119457273-39	Asp. Tox. 1; H304	>= 10 - < 20
Solvent naphtha (petroleum), light arom.	64742-95-6 918-668-5 01-2119486773-24	Flam. Liq. 3; H226 STOT SE 3; H336 STOT SE 3; H335 Asp. Tox. 1; H304 Aquatic Chronic 2; H411	>= 10 - < 20

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice		Move the victim to fresh air. Do not leave the victim unattended.
		No hazards which require special first aid measures.
If inhaled	:	If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.
In case of skin contact	:	Wash off immediately with soap and plenty of water.
In case of eye contact	:	Immediately flush eye(s) with plenty of water.
		Remove contact lenses. If eye irritation persists, consult a specialist.

STAPA METALLUX 1520 Aluminium Paste

Versic 2.0	on Revision Date: 07.12.2019		DS Number: 02000030584	Print Date: 25.02.2022 Date of first issue: 27.09.2018		
If swallowed		:	 Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. 			
	4.2 Most important symptoms and effects, both acute and delayed None known.					
	dication of any immediate nformation is not available.	me	dical attention and	d special treatment needed		
_						
SECI	SECTION 5: Firefighting measures					
5.1 Ex	tinguishing media					
S	uitable extinguishing media	ι :	Dry sand Special powder a	gainst metal fire		
	Insuitable extinguishing nedia	:	Water Foam ABC powder Carbon dioxide ((CO2)		

5.2 Special hazards arising from the substance or mixture

Specific hazards during	:	Do not allow run-off from fire fighting to enter drains or water
firefighting		courses.

5.3 Advice for firefighters

Special protective equipment for firefighters	:	Use personal protective equipment.
		Wear self-contained breathing apparatus for firefighting if necessary.
Further information	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures				
Personal precautions	:	Evacuate personnel to safe areas. Use personal protective equipment. Remove all sources of ignition.		

Avoid dust formation.

according to Regulation (EC) No. 1907/2006

STAPA METALLUX 1520 Aluminium Paste

Version	Revision Date:	SDS Number:	Print Date: 25.02.2022
2.0	07.12.2019	102000030584	Date of first issue: 27.09.2018

6.2 Environmental precautions

Environmental precautions	 Prevent product from entering drains. If the product contaminates rivers and lakes or drains inform respective authorities.
6.3 Methods and material for cont	ainment and cleaning up
Methods for cleaning up	 Use mechanical handling equipment. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).
	Sweep up and shovel. Do not flush with water. Keep in suitable, closed containers for disposal.

6.4 Reference to other sections

For personal protection see section 8.

SECTION 7: Handling and storage			
7.1 Precautions for safe handling Advice on safe handling :		Keep away from heat and sources of ignition. Avoid dust formation. Ensure adequate ventilation.	
		For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area.	
Advice on protection against fire and explosion	:	Keep away from open flames, hot surfaces and sources of ignition. Earthing of containers and apparatuses is essential.	
		Normal measures for preventive fire protection.	
Hygiene measures	:	General industrial hygiene practice.	
7.2 Conditions for safe storage, incl Requirements for storage : areas and containers		Store in original container. Keep containers tightly closed in a cool, well-ventilated place. Keep container closed when not in use. Keep away from sources of ignition - No smoking.	
		Electrical installations / working materials must comply with the technological safety standards.	
Further information on storage conditions	:	Protect from humidity and water. Do not allow to dry.	
Advice on common storage	:	Do not store together with oxidizing and self-igniting products. Never allow product to get in contact with water during

aluminium powder (stabilised)	Fresh water	0.0749 mg/l
	clarification plant	20 mg/l

8.2 Exposure controls

Personal protective equipmer	nt				
Eye protection	Safety glasses				
Hand protection Material	Solvent-resistant gloves				
Remarks :	 Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). The exact break through time can be obtained from the protective glove producer and this has to be observed. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Recommended preventive skin protection Skin should be washed after contact. The suitability for a specific workplace should be discussed with the producers of the protective gloves. 				
Skin and body protection	Long sleeved clothing Safety shoes Choose body protection according to the amount and concentration of the dangerous substance at the work place.				
Respiratory protection	Use suitable breathing protection if workplace concentration requires.				
Environmental exposure cont	Environmental exposure controls				
Water	The product should not be allowed to enter drains, water courses or the soil.

No data available

SECTION 10: Stability and reactivity

10.1 Reactivity

No decomposition if stored and applied as directed.

10.2 Chemical stability

No decomposition if stored and applied as directed.

10.3 Possibility of hazardous reactions

Hazardous reactions	 Reacts with alkalis, acids, halogenes and oxidizing agents. Contact with acids and alkalis may release hydrogen. Mixture reacts slowly with water resulting in evolution of hydrogen. Vapour/air-mixtures are explosive at intense warming.
	vapour/air-mixtures are explosive at intense warming.

Stable under recommended storage conditions.

10.4 Conditions to avoid

Conditions to avoid

: Do not allow to dry.

No data available

10.5 Incompatible materials

Materials to avoid

: Acids Bases Oxidizing agents Highly halogenated compounds

10.6 Hazardous decomposition products

Contact with water or humid : This information is not available. air
