### Concentrate Zink bright 180 kg

Version 4.0

Revision Date 01.12.2020

Print Date 24.01.2022

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### **1.1 Product identifier**

Trade name Material number : Concentrate Zink bright 180 kg : 08329125V

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

This information is not available.

#### 1.3 Details of the supplier of the safety data sheet

Company	: ECKART GmbH
	Guentersthal 4
	91235 Hartenstein
Telephone	: +499152770
Telefax	: +499152777008
E-mail address	: msds.eckart@altana.com
Responsible/issuing person	

#### 1.4 Emergency telephone number

NCEC: (contract no.: ECKART29003-NCEC) +44 1235 239671 (Middle East/Africa, call and response in your language) +1 215 207 0061 (Americas, call and response in your language) +65 3158 1074 (Asia-Pacific, call and response in your language)

#### **SECTION 2: Hazards identification**

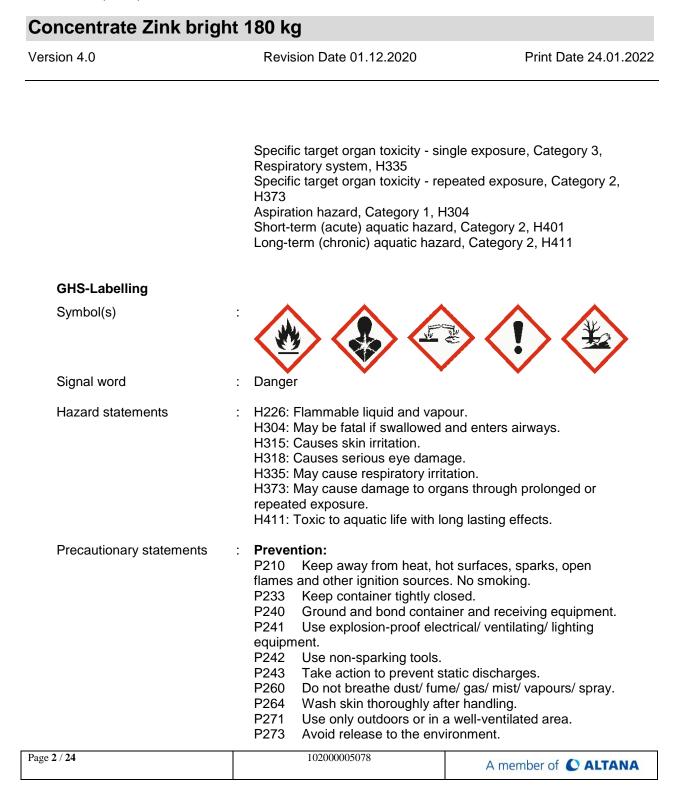

#### **GHS Classification**

: Flammable liquids, Category 3, H226 Skin corrosion/irritation, Category 2, H315 Serious eye damage/eye irritation, Category 1, H318

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

General advice	: Move the victim to fresh air. Do not leave the victim unattended.	
	Move out of dangerous area. Consult a physician. Show this safety data sheet to t Symptoms of poisoning may ap	
If inhaled	<ul> <li>If unconscious, place in recover advice.</li> <li>If symptoms persist, call a physical structure</li> </ul>	
In case of skin contact	: Wash off immediately with soap and plenty of water.	
	If skin irritation persists, call a p If on skin, rinse well with water. If on clothes, remove clothes.	
In case of eye contact	: Immediately flush eye(s) with plenty of water.	
	Small amounts splashed into eyes can cause irreversible tissue damage and blindness. Remove contact lenses.

Version 4.0	Revision Date 01.12.2020	Print Date 24.01.2022
	Keep eye wide open while rinsing.	
If swallowed :	Keep respiratory tract clear. Do NOT induce vomiting. Do not give milk or alcoholic beverages. Never give anything by mouth to an uncons If symptoms persist, call a physician. Take victim immediately to hospital.	cious person.

#### 4.2 Most important symptoms and effects, both acute and delayed

This information is not available.

#### 4.3 Indication of any immediate medical attention and special treatment needed

This information is not available.

#### **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

0 0		
Suitable extinguishing media	: Dry sand, ABC powder, Foam	
Unsuitable extinguishing media	: High volume water jet	
5.2 Special hazards arising from	the substance or mixture	
Specific hazards during firefighting	: Do not allow run-off from fire fig courses.	ghting to enter drains or water
5.3 Advice for firefighters		
Special protective equipment for firefighters	: Wear self-contained breathing necessary.	apparatus for firefighting if
Further information	: Collect contaminated fire exting must not be discharged into dra contaminated fire extinguishing	ains. Fire residues and
Page 6 / 24	10200005078	A member of <b>C ALTANA</b>

Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

### Concentrate Zink bright 180 kg

Version 4.0	Revision Date 01.12.2020	Print Date 24.01.2022	

accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments.

#### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	<ul> <li>Evacuate personnel to safe areas.</li> <li>Use personal protective equipment.</li> <li>Ensure adequate ventilation.</li> <li>Remove all sources of ignition.</li> <li>Evacuate personnel to safe areas.</li> <li>Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas.</li> </ul>
----------------------	--

#### 6.2 Environmental precautions

Environmental precautions	: Prevent product from entering drains.
	Prevent further leakage or spillage if safe to do so.
	If the product contaminates rivers and lakes or drains inform
	respective authorities.

#### 6.3 Methods and materials for containment and cleaning up

Methods for cleaning up	: Use mechanical handling equipment. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).
	Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Do not flush with water.

#### 6.4 Reference to other sections

Page 7 / 24	10200005078	A member of <b>C ALTANA</b>
-------------	-------------	-----------------------------

Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

### Concentrate Zink bright 180 kg

Version 4.0

Revision Date 01.12.2020

Print Date 24.01.2022

For personal protection see section 8.

#### **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

Advice on safe handling	:	Avoid formation of aerosol. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. To avoid spills during handling keep bottle on a metal tray. Dispose of rinse water in accordance with local and national regulations.
Advice on protection against fire and explosion	:	Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Keep away from open flames, hot surfaces and sources of ignition.
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
7.2 Conditions for safe storage,	incl	uding any incompatibilities
Requirements for storage areas and containers	:	Earthing of containers and apparatuses is essential. Reaction with water liberates extremely flammable gas (hydrogen) Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment. Store in original container. Keep containers tightly closed in a cool, well-ventilated place. Keep away from sources of ignition - No smoking. Keep container closed when not in use.

No smoking. Keep container tightly closed in a dry and wellventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working

	materials must comply with the te standards.	echnological safety
Further information on storage conditions	: Protect from humidity and water.	
Advice on common storage	: Do not store near acids. Do not store together with oxidizing and self-igniting products. Never allow product to get in contact with water during storage. Keep away from oxidizing agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.	
Other data	: No decomposition if stored and a	pplied as directed.

### 7.3 Specific end use(s)

This information is not available.

### 8.2 Exposure controls

Personal protective equipm	ent	nt	
Eye protection	:	Goggles	
	:	Wear face-shield and protective suit for abnormal processing problems.	
Hand protection			
Material	:	Solvent-resistant gloves (butyl-r	rubber)
Remarks	:	Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). The exact break through time can be obtained from the	
		protective glove producer and this has to be observed. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time.	
		Recommended preventive skin protection	
		Skin should be washed after contact.	
		The suitability for a specific workplace should be discussed with the producers of the protective gloves.
