| 3.0 | 09.12.2019 | 102000024354 | Date of first issue: 31.03.2016 |

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name : Metallic Paint Silver 25 I

Product code : 08207328V

1.2 Relevant identified uses of the substance or mixture and uses advised against

This information is not available.

1.3 Details of the supplier of the safety data sheet

| Company | : | ECKART GmbH Guentersthal 4 91235 Hartenstein |
|--|---|--|
| Telephone | : | +499152770 |
| Telefax | : | +499152777008 |
| E-mail address of person responsible for the SDS | : | msds.eckart@altana.com |

1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

| Flammable liquids, Category 3 | H226: Flammable liquid and vapour. |
|--|--|
| Skin irritation, Category 2 | H315: Causes skin irritation. |
| Eye irritation, Category 2 | H319: Causes serious eye irritation. |
| Specific target organ toxicity - single exposure, Category 3, Central nervous system | H336: May cause drowsiness or dizziness. |
| Specific target organ toxicity - single exposure, Category 3, Respiratory system | H335: May cause respiratory irritation. |
| Long-term (chronic) aquatic hazard, Category 3 | H412: Harmful to aquatic life with long lasting effects. |

according to Regulation (EC) No. 1907/2006

Metallic Paint Silver 25 I

| Version 3.0 | Revision Date: 09.12.2019 | | DS Number: 02000024354 | Print Date: 04.03.2022 Date of first issue: 31.03.2016 |

| Preca | utionary statements | : | P101 P102 Prevention: P210 P271 Response: P370 + P378 Storage: P405 Disposal: P501 | If medical advice is needed, have product container or label at hand. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use only outdoors or in a well-ventilated area. In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish. Store locked up. Dispose of contents/ container to an approved waste disposal plant. |

Hazardous components which must be listed on the label: Solvent naphtha (petroleum), light arom. n-butyl acetate xylene butan-1-ol

Additional Labelling

EUH208 Contains n-butyl acrylate. May produce an allergic reaction.

Reduced Labelling (<= 125 ml)

SECTION 4: First aid measures

| 4.1 Description of first aid meas | sures |
|-----------------------------------|---|
| General advice | : Move the victim to fresh air. Do not leave the victim unattended. |
| | Move out of dangerous area. Show this safety data sheet to the doctor in attendance. |
| If inhaled | : Consult a physician after significant exposure. If unconscious, place in recovery position and seek medical advice. |
| In case of skin contact | : Wash off immediately with soap and plenty of water. |
| | If skin irritation persists, call a physician. If on skin, rinse well with water. If on clothes, remove clothes. |

Metallic Paint Silver 25 I

|---|------------------------------|--|---|--|
| In case | e of eye contact | : Immediately flu | sh eye(s) with plenty of water. | |
| in case | e of eye contact | Immediately flue Remove contac Keep eye wide | sh eye(s) with plenty of water. | |
| lf swal | lowed | Never give any | y tract clear. < or alcoholic beverages. thing by mouth to an unconscious person. rsist, call a physician. | |
| 4.2 Most important symptoms and effects, both acute and delayed | | | | |
| Risks | | | | |

4.3 Indication of any immediate medical attention and special treatment needed

This information is not available.

SECTION 5: Firefighting measures

5.1 Extinguishing media

| Suitable extinguishing media | : | Dry sand ABC powder Foam |
|--------------------------------|---|--------------------------------|
| Unsuitable extinguishing media | : | High volume water jet |

5.2 Special hazards arising from the substance or mixture

| Specific hazards during firefighting | : | Do not allow run-off from fire fighting to enter drains or water courses. |
|---|---|---|
| | | |

5.3 Advice for firefighters

| 5 | | |
|---|---|--|
| Special protective equipment for firefighters | : | Wear self-contained breathing apparatus for firefighting if necessary. |
| Further information | : | Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. |

Metallic Paint Silver 25 I

|---------|----------------|--------------|---------------------------------|
| 3.0 | 09.12.2019 | 102000024354 | Date of first issue: 31.03.2016 |

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

| Personal precautions | : Evacuate personnel to safe areas. |
|----------------------|--|
| | Use personal protective equipment. |
| | Remove all sources of ignition. |
| | Evacuate personnel to safe areas. |
| | Beware of vapours accumulating to form explosive |
| | concentrations. Vapours can accumulate in low areas. |

6.2 Environmental precautions

| Environmental precautions | | Prevent product from entering drains. |
|---------------------------|--|---|
| | | Prevent further leakage or spillage if safe to do so. |
| | | If the product contaminates rivers and lakes or drains inform |
| | | respective authorities. |

6.3 Methods and material for containment and cleaning up

| Methods for cleaning up | : | Use mechanical handling equipment. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). | | |
|-------------------------|---|--|--|--|
| | | Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Do not flush with water. | | |

6.4 Reference to other sections

For personal protection see section 8.

SECTION 7: Handling and storage

| 7.1 Precautions for safe handling Advice on safe handling | | Avoid formation of aerosol. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations. |
|--|---|---|
| Advice on protection against fire and explosion | : | Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge |

SECTION 10: Stability and reactivity

10.1 Reactivity

No decomposition if stored and applied as directed.

10.2 Chemical stability

No decomposition if stored and applied as directed.

10.3 Possibility of hazardous reactions

| Hazardous reactions | | : | Contact with acids and alkalis may release hydrogen. |
|---------------------|--------------------------|-----|--|
| | | | Stable under recommended storage conditions. |
| | | | Vapours may form explosive mixture with air. |
| 10.4 Con | ditions to avoid | | |
| Con | ditions to avoid | : | Do not allow evaporation to dryness. |
| | | | Heat, flames and sparks. |
| 10.5 Inco | mpatible materials | | |
| Mate | erials to avoid | : | Acids Bases Oxidizing agents |
| 10.6 Haz | ardous decomposition pro | odu | ucts |
| Cont air | act with water or humid | : | This information is not available. |

Thermal decomposition : This information is not available.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

| Product: | | |
|---------------------------|--------|---|
| Acute oral toxicity | : | Acute toxicity estimate: > 2,000 mg/kg Method: Calculation method |
| Acute inhalation toxicity | : | Acute toxicity estimate: > 20 mg/l Exposure time: 4 h Test atmosphere: vapour Method: Calculation method |
| Acute dermal toxicity | : | Acute toxicity estimate: > 2,000 mg/kg Method: Calculation method |
| Components: | | |
| Solvent naphtha (petroleu | m), li | ght arom.: |
| Acute oral toxicity | : | LD50 (Rat): 3,492 mg/kg |
| Acute dermal toxicity | : | LD50 (Rabbit): > 3,160 mg/kg |
| aluminium powder (stabili | sed): | |
| Acute inhalation toxicity | : | LC50 (Rat): > 5 mg/l Exposure time: 4 h Test atmosphere: dust/mist |
| xylene: | | |
| Acute inhalation toxicity | : | Assessment: The component/mixture is moderately toxic after short term inhalation. |
| Acute dermal toxicity | : | Acute toxicity estimate: 1,100 mg/kg Method: Converted acute toxicity point estimate |
| butan-1-ol: | | |
| Acute oral toxicity | : | Acute toxicity estimate: 500 mg/kg Method: Converted acute toxicity point estimate |
| n-butyl acrylate: | | |
| Acute oral toxicity | : | Assessment: The component/mixture is moderately toxic after single ingestion. |
| Acute inhalation toxicity | : | Assessment: The component/mixture is moderately toxic after short term inhalation. |

Germ cell mutagenicity

Not classified based on available information.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

STOT - single exposure

May cause respiratory irritation. May cause drowsiness or dizziness.

Components:

Solvent naphtha (petroleum), light arom.:

Assessment: May cause respiratory irritation., May cause drowsiness or dizziness.

n-butyl acetate:

Assessment: May cause drowsiness or dizziness.

xylene:

Assessment: May cause respiratory irritation.

butan-1-ol:

Assessment: The substance or mixture is classified as specific target organ toxicant, single exposure, category 3 with narcotic effects., The substance or mixture is classified as specific target organ toxicant, single exposure, category 3 with respiratory tract irritation.

n-butyl acrylate:

Assessment: May cause respiratory irritation.

STOT - repeated exposure

Not classified based on available information.

Components:

xylene:

Target Organs: Central nervous system Assessment: The substance or mixture is classified as specific target organ toxicant, repeated exposure, category 2.

Aspiration toxicity

Not classified based on available information.

Components:

Solvent naphtha (petroleum), light arom.:

May be fatal if swallowed and enters airways.

xylene:

May be fatal if swallowed and enters airways.

Further information

Product:

Remarks: Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.

Concentrations substantially above the TLV value may cause narcotic effects. Solvents may degrease the skin.

SECTION 12: Ecological information

12.1 Toxicity

Components:

Solvent naphtha (petroleum), light arom.:

Ecotoxicology Assessment

Long-term (chronic) aquatic : Toxic to aquatic life with long lasting effects. hazard

n-butyl acrylate:

Ecotoxicology Assessment
