Version	Revision Date:	SDS Number:	Print Date: 11.03.2022
3.1	09.03.2022	10200000646	Date of first issue: 10.01.2014

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name	: LUXAN K 271
Product code	: 022407SG0

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the	
Substance/Mixture	

: Colouring agents, pigments

1.3 Details of the supplier of the safety data sheet

Company	:	ECKART GmbH Guentersthal 4 91235 Hartenstein
Telephone	:	+499152770
Telefax	:	+499152777008
E-mail address of person responsible for the SDS	:	msds.eckart@altana.com

1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Not a dangerous substance according to GHS.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture according to the Globally Harmonised System (GHS).

Additional Labelling

EUH210	Safety data sheet available on request.
EUH212	Warning! Hazardous respirable dust may be formed when used. Do not breathe
	dust.

LUXAN K 271

Version	Revision Date:	SDS Number:	Print Date: 11.03.2022
3.1	09.03.2022	10200000646	Date of first issue: 10.01.2014

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Hazardous	components

Remarks	:	No hazardous ingredients
---------	---	--------------------------

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	:	Do not leave the victim unattended.
If inhaled	:	If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.
In case of skin contact	:	Wash off with soap and water.
In case of eye contact	:	Remove contact lenses. If eye irritation persists, consult a specialist.
If swallowed	:	Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

4.2 Most important symptoms and effects, both acute and delayed

None known.

4.3 Indication of any immediate medical attention and special treatment needed

This information is not available.

SECTION 5: Firefighting measures

5.1 Extinguishing media						
Suitable extinguishing media	:	Foam Carbon dioxide (CO2) ABC powder				
5.2 Special bazards arising from the substance or mixture						

5.2 Special hazards arising from the substance or mixture

5.3 Advice for firefighters

Special protective equipment	:	Wear self-contained breathing apparatus for firefighting if
for firefighters		necessary.

SAFETY DATA SHEET

_

according to Regulation (EC) No. 1907/2006

LUXAN K 271

Version 3.1	Revision Date: 09.03.2022		DS Number: 02000000646	Print Date: 11.03.2022 Date of first issue: 10.01.2014	
Further information		:	Use extinguishing	ure for chemical fires. g measures that are appropriate to local nd the surrounding environment.	
SECTION 6: Accidental release measures					
6.1 Perso	nal precautions, prote	ctiv	e equipment and	emergency procedures	
Perso	onal precautions	:	Avoid dust forma	tion.	
6.2 Environmental precautions					
Envir	onmental precautions	:	No special enviro	nmental precautions required.	
6.3 Methods and material for containment and cleaning up					
Meth	ods for cleaning up	:	Sweep up and sh	nge disposal without creating dust. novel. closed containers for disposal.	
6.4 Refer	6.4 Reference to other sections				

SECTION 7: Handling and storage

7.1	Precautions for safe handling Advice on safe handling		For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area.
	Advice on protection against fire and explosion		Provide appropriate exhaust ventilation at places where dust is formed.
	Hygiene measures	:	General industrial hygiene practice.
7.2	Conditions for safe storage, in Requirements for storage areas and containers		Iding any incompatibilities Electrical installations / working materials must comply with the technological safety standards.
	Advice on common storage	:	No materials to be especially mentioned.
	Further information on storage stability	:	Keep in a dry place. No decomposition if stored and applied as directed.

7.3 Specific end use(s)

This information is not available.

LUXAN K 271

Version	Revision Date:	SDS Number:	Print Date: 11.03.2022
3.1	09.03.2022	10200000646	Date of first issue: 10.01.2014

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form of exposure)	Control parameters	Basis
titanium dioxide	13463-67- 7	TWA (inhaláble dust)	10 mg/m3	GB EH40
Further information	For the purposes of these limits, respirable dust and inhalable dust are those fractions of airborne dust which will be collected when sampling is undertaken in accordance with the methods described in MDHS14/4 General methods for sampling and gravimetric analysis or respirable, thoracic and inhalable aerosols., The COSHH definition of a substance hazardous to health includes dust of any kind when present at a concentration in air equal to or greater than 10 mg.m-3 8-hour TWA of inhalable dust or 4 mg.m-3 8-hour TWA of respirable dust. This means that any dust will be subject to COSHH if people are exposed to dust above these levels. Some dusts have been assigned specific WELs and exposure to these must comply with the appropriate limits., Most industrial dusts contain particles of a wide range of sizes. The behaviour, deposition and fate of any particular particle after entry into the human respiratory system, and the body response that it elicits, depend on the nature and size of the particle. HSE distinguishes two size fractions for limit-setting purposes termed 'inhalable' and 'respirable'., Inhalable dust approximates to the fraction that penetrates to the gas exchange regior of the lung. Fuller definitions and explanatory material are given in MDHS14/4., Where dusts contain components that have their own assigned WEL, all the relevant limits should be complied with., Where no specific short-term exposure limit is listed, a figure three times the long-term

9.2 Other information

No data available

SECTION 10: Stability and reactivity

10.1 Reactivity

No decomposition if stored and applied as directed.

10.2 Chemical stability

No decomposition if stored and applied as directed.

10.3 Possibility of hazardous reactions

Hazardous reactions		Stable under recommended storage conditions.	
		No hazards to be specially mentioned.	

10.4 Conditions to avoid

Conditions to avoid : No data available

10.5 Incompatible materials

10.6 Hazardous decomposition products

Contact with water or humid : This information is not available. air

Thermal decomposition : This information is not available.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity

Not classified based on available information.

Skin corrosion/irritation

Not classified based on available information.

Serious eye damage/eye irritation

Not classified based on available information.

Respiratory or skin sensitisation

Skin sensitisation

Not classified based on available information.

Respiratory sensitisation

Not classified based on available information.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Contaminated packaging

: Empty containers should be taken to an approved waste handling site for recycling or disposal.

SECTION 14: Transport information

14.1 UN number

Not regulated as a dangerous good

14.2 UN proper shipping name

Not regulated as a dangerous good

14.3 Transport hazard class(es)

Not regulated as a dangerous good

14.4 Packing group

Not regulated as a dangerous good

14.5 Environmental hazards

Not regulated as a dangerous good

14.6 Special precautions for user

Remarks

- :
- Not classified as dangerous in the meaning of transport regulations.
- 14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

REACH - Candidate List of Substances of Very High Concern for Authorisation (Article 59).	: Not applicable	
Regulation (EC) No 1005/2009 on substances that deplete the ozone layer	: Not applicable	
Regulation (EU) 2019/1021 on persistent organic pollutants (recast)	: Not applicable	
UK REACH List of substances subject to authorisation (Annex XIV)	: Not applicable	

LUXAN K 271

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, preparations and articles (Annex XVII) : Not applicable

15.2 Chemical safety assessment

SECTION 16: Other information
