SAFETY DATA SHEET according to Regulation (EC) No. 1907/2006

STAPA IL HYDROLAN 2192 55900/G Aluminium Paste

Version	Revision Date:	SDS Number:	Print Date: 18.08.2023
6.0	17.08.2023	102000000226	Date of first issue: 02.01.2014

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name	:	STAPA IL HYDROLAN 2192 55900/G Aluminium Paste
Product code	:	005326GD0

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the	:	Colouring agent
Substance/Mixture		Colouring agents, pigments

1.3 Details of the supplier of the safety data sheet

Company	:	ECKART GmbH Guentersthal 4 91235 Hartenstein
Telephone	:	+499152770
Telefax	:	+499152777008
E-mail address of person responsible for the SDS	:	msds.eckart@altana.com

1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Flammable solids, Category 1 Eye irritation, Category 2 Specific target organ toxicity - single exposure, Category 3, Central nervous system H228: Flammable solid.H319: Causes serious eye irritation.H336: May cause drowsiness or dizziness.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

according to Regulation (EC) No. 1907/2006

STAPA IL HYDROLAN 2192 55900/G Aluminium Paste

Version 6.0	Revision Date: 17.08.2023	-	SDS Number: 02000000226	Print Date: 18.08.2023 Date of first issue: 02.01.2014
Haza	ard pictograms	:		!
Sign	al word	:	Danger	×
Haza	ard statements	:	H228 H319 H336	Flammable solid. Causes serious eye irritation. May cause drowsiness or dizziness.
Prec	autionary statements	:	Prevention: P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
			P261 P280	Avoid breathing dust. Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection.
			Response: P304 + P340 + P3	312 IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/ doctor if you feel unwell.
			P370 + P378	In case of fire: Use for extinction: Special powder for metal fires.
			P370 + P378	In case of fire: Use for extinction: Dry sand.

Hazardous components which must be listed on the label:

propan-2-ol Solvent naphtha (petroleum), light arom.

Additional Labelling

EUH208 Contains N-(3-(trimethoxysilyl)propyl)ethylenediamine. May produce an allergic reaction.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Chemical nature : Pigment

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	:	Move the victim to fresh air.
		Move out of dangerous area. Show this safety data sheet to the doctor in attendance.
If inhaled	:	Consult a physician after significant exposure.

SAFETY DATA SHEET according to Regulation (EC) No. 1907/2006

STAPA IL HYDROLAN 2192 55900/G Aluminium Paste

Version 6.0	Revision Date: 17.08.2023	SDS Number: 102000000226	Print Date: 18.08.2023 Date of first issue: 02.01.2014
		If unconscious advice.	, place in recovery position and seek medical
In cas	se of skin contact	: Wash off imme	ediately with soap and plenty of water.
			e well with water. emove clothes.
In cas	se of eye contact	Remove conta	ush eye(s) with plenty of water. ct lenses. e open while rinsing.
lf swa	llowed	Never give any	ery tract clear. Ik or alcoholic beverages. /thing by mouth to an unconscious person. ersist, call a physician.

4.2 Most important symptoms and effects, both acute and delayed

Risks	:	Causes serious eye irritation.
		May cause drowsiness or dizziness.

4.3 Indication of any immediate medical attention and special treatment needed

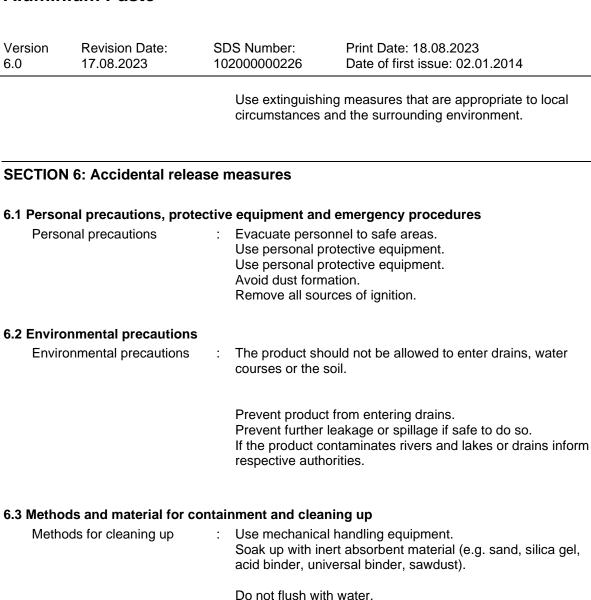

This information is not available.

SECTION 5: Firefighting measures

5.1 Extinguishing media		
Suitable extinguishing media	:	Dry sand Special powder against metal fire
Unsuitable extinguishing media	:	Water Foam Carbon dioxide (CO2) ABC powder
5.2 Special hazards arising from	the	e substance or mixture
Specific hazards during firefighting	:	Contact with water liberates extremely flammable gas (hydrogen).
5.3 Advice for firefighters		
Special protective equipment for firefighters	:	Use personal protective equipment.
		Wear self-contained breathing apparatus for firefighting if necessary.
Further information	:	Standard procedure for chemical fires.

SAFETY DATA SHEET according to Regulation (EC) No. 1907/2006

STAPA IL HYDROLAN 2192 55900/G Aluminium Paste

6.4 Reference to other sections

For personal protection see section 8.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling	 Keep away from heat and sources of ignition. Avoid dust formation. Ensure adequate ventilation. Avoid formation of respirable particles. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. 	
-------------------------	---	--

Keep in suitable, closed containers for disposal.

C ECKART

according to Regulation (EC) No. 1907/2006

STAPA IL HYDROLAN 2192 55900/G Aluminium Paste

VersionRevision Date:6.017.08.2023	SDS Number: Print Date: 18.08.2023 102000000226 Date of first issue: 02.01.2014					
Advice on protection against fire and explosion	 Smoking, eating and drinking should be prohibited in the application area. Provide sufficient air exchange and/or exhaust in work rooms. Dispose of rinse water in accordance with local and national regulations. Earthing of containers and apparatuses is essential. Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment. 					
	Avoid dust formation. Keep away from open flames, hot surfaces and sources of ignition.					
Hygiene measures	: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.					
7.2 Conditions for safe storage, including any incompatibilities						
Requirements for storage areas and containers	: Store in original container. Keep containers tightly closed in a cool, well-ventilated place. Keep container closed when not in use. Keep away from sources of ignition - No smoking.					
	No smoking. Keep container tightly closed in a dry and well- ventilated place. Electrical installations / working materials must comply with the technological safety standards.					
Further information on storage conditions	: Protect from humidity and water. Do not allow to dry.					
Advice on common storage	 Do not store together with oxidizing and self-igniting products. Never allow product to get in contact with water during storage. Keep away from oxidizing agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions. 					
Further information on storage stability	: No decomposition if stored and applied as directed.					
7.3 Specific end use(s)						

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

8.2 Exposure controls

Personal protective equipment	t i i i i i i i i i i i i i i i i i i i
Eye/face protection :	Wear face-shield and protective suit for abnormal processing problems.
Hand protection Material :	Solvent-resistant gloves (butyl-rubber)
Remarks :	Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). The exact break through time can be obtained from the protective glove producer and this has to be observed. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Recommended preventive skin protection Skin should be washed after contact. The suitability for a specific workplace should be discussed with the producers of the protective gloves.
Skin and body protection :	Long sleeved clothing Safety shoes Choose body protection according to the amount and
Respiratory protection :	concentration of the dangerous substance at the work place. Use suitable breathing protection if workplace concentration requires.

Miscibility with water

: partly miscible

SECTION 10: Stability and reactivity

10.1 Reactivity

No decomposition if stored and applied as directed.

10.2 Chemical stability

No decomposition if stored and applied as directed.

10.3 Possibility of hazardous reactions

Hazardous reactions	 Reacts with alkalis, acids, halogenes and oxidizing agents. Contact with acids and alkalis may release hydrogen. Mixture reacts slowly with water resulting in evolution of hydrogen. Vapours may form explosive mixture with air. Stable under recommended storage conditions.

10.4 Conditions to avoid

Conditions to avoid

: Do not allow to dry.

Heat, flames and sparks.

10.5 Incompatible materials

Materials to avoid

: Acids Bases Oxidizing agents Highly halogenated compounds

10.6 Hazardous decomposition products

This information is not available.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity

Not classified based on available information.

Components:

STAPA IL HYDROLAN 2192 55900/G Aluminium Paste

Version	Revision Date:	SDS Number:	Print Date: 18.08.2023
6.0	17.08.2023	102000000226	Date of first issue: 02.01.2014

Aspiration toxicity

Not classified based on available information.

Components:

Naphtha (petroleum), hydrotreated heavy; Low boiling point ydrogen treated naphtha: May be fatal if swallowed and enters airways.

Solvent naphtha (petroleum), light arom.:

May be fatal if swallowed and enters airways.

11.2 Information on other hazards

Further information

Product:

Remarks

 Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.
 Concentrations substantially above the TLV value may cause narcotic effects.
 Solvents may degrease the skin.

SECTION 12: Ecological information

12.1 Toxicity

Components:

Solvent naphtha (petroleum), light arom.:

Ecotoxicology Assessment

Chronic aquatic toxicity : Toxic to aquatic life with long lasting effects.

1

12.2 Persistence and degradability

No data available

12.3 Bioaccumulative potential

No data available

12.4 Mobility in soil

No data available

12.5 Results of PBT and vPvB assessment

Product:

Assessment

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of according to Regulation (EC) No. 1907/2006

14.6 Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Relevant EU provisions transposed through retained EU law

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII)	:	Conditions of restriction for the following entries should be considered: aluminium powder (stabilised) (Number on list 40) propan-2-ol (Number on list 3) ethanol (Number on list 3) Naphtha (petroleum), hydrotreated heavy; Low boiling point ydrogen treated naphtha (Number on list 3) Solvent naphtha (petroleum), light arom. (Number on list 3) N-(3- (trimethoxysilyl)propyl)ethylenediami ne (Number on list 3)
UK REACH Candidate list of substances of very high concern (SVHC) for Authorisation	:	Not applicable
The Persistent Organic Pollutants Regulations (retained Regulation (EU) 2019/1021 as amended for Great Britain)	:	Not applicable
Regulation (EC) No 1005/2009 on substances that deplete the ozone layer	:	Not applicable
UK REACH List of substances subject to authorisation (Annex XIV)	:	Not applicable

15.2 Chemical safety assessment

No data available

according to Regulation (EC) No. 1907/2006
