### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### **1.1 Product identifier**

| Trade name   | : STAPA WM REFLEXAL 216/80 Aluminium | Paste |
|--------------|--------------------------------------|-------|
| Product code | : 051057GD0                          |       |

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

| Use of the        | : | Colouring agents, pigments |
|-------------------|---|----------------------------|
| Substance/Mixture |   |                            |

#### 1.3 Details of the supplier of the safety data sheet

| Company  | : | ECKART GmbH<br>Guentersthal 4<br>91235 Hartenstein |
|--|---|--|
| Telephone  | : | +499152770   |
| Telefax  | : | +499152777008                                      |
| E-mail address of person responsible for the SDS | : | msds.eckart@altana.com                             |

### 1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

### **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

### Classification (REGULATION (EC) No 1272/2008)

Not a dangerous substance according to GHS.

#### 2.2 Label elements

### Labelling (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture according to the Globally Harmonised System (GHS).

#### 2.3 Other hazards

**Combustible Solids** 

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

| Version | Revision Date: | SDS Number: | Print Date: 12.07.2022          |

For explanation of abbreviations see section 16.

#### **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

| General advice            | Move the victim to fresh air.<br>Do not leave the victim unattended.  |  |  |
|---------------------------|---|--|--|
|                           | No hazards which require special first aid measures.  |  |  |
| If inhaled :              | If unconscious, place in recovery position and seek medical<br>advice.<br>If symptoms persist, call a physician.  |  |  |
| In case of skin contact : | Wash off immediately with soap and plenty of water.   |  |  |
| In case of eye contact :  | Immediately flush eye(s) with plenty of water.  |  |  |
|                           | Remove contact lenses.  |  |  |
| If swallowed :            | Keep respiratory tract clear.<br>Do not give milk or alcoholic beverages.<br>Never give anything by mouth to an unconscious person.<br>If symptoms persist, call a physician. |  |  |

### 4.2 Most important symptoms and effects, both acute and delayed

None known.

### 4.3 Indication of any immediate medical attention and special treatment needed

This information is not available.

### **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

Suitable extinguishing media : Dry sand

Special powder against metal fire

### **SAFETY DATA SHEET** according to Regulation (EC) No. 1907/2006

## STAPA WM REFLEXAL 216/80 Aluminium Paste

| Version | Revision Date: | SDS Number: | Print Date: 12.07.2022          |
|---------|----------------|-------------|---------------------------------|
| 2.3     | 11.07.2022     | 10200000301 | Date of first issue: 02.01.2014 |

| hazardous to health includes dust of any kind when present at a concentration in air equal to or greater than 10 mg.m-3 8-hour TWA of inhalable dust or 4 mg.m-3 8-hour TWA of respirable dust. This means that any dust will be subject to COSHH if people are exposed to dust above these levels. Some dusts have been assigned specific WELs and exposure to these must comply with the appropriate limits., Most industrial dusts contain particles of a wide range of sizes. The behaviour, deposition and fate of any particular particle after entry into the human respiratory system, and the body response that it elicits, depend on the nature and size of the particle. HSE distinguishes two size fractions for limit-setting purposes termed 'inhalable' and 'respirable'., Inhalable dust approximates to the fraction of airborne material that enters the nose and mouth during breathing and is therefore available for deposition in the respiratory tract. Respirable dust approximates to the fraction that penetrates to the gas exchange region of the lung. Fuller definitions and explanatory material are given in MDHS14/4., Where dusts contain components that have their own assigned WEL, all the relevant limits should be complied with., Where no specific short-term exposure limit is listed, a figure three times the long-term exposure limit should be used. |

### 9.2 Other information

No data available

Version Revisio 2.3 11.07.2

Revision Date: 11.07.2022

SDS Number: 102000000301 Print Date: 12.07.2022 Date of first issue: 02.01.2014

### **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No decomposition if stored and applied as directed.

### 10.2 Chemical stability

No decomposition if stored and applied as directed.

### 10.3 Possibility of hazardous reactions

| Hazardous reactions           | <ul> <li>Reacts with alkalis, acids, halogenes and oxidizing agents.<br/>Contact with acids and alkalis may release hydrogen.<br/>Mixture reacts slowly with water resulting in evolution of<br/>hydrogen.<br/>Vapour/air-mixtures are explosive at intense warming.</li> </ul> |
|-------------------------------|---|
|                               | Stable under recommended storage conditions.  |
| 10.4 Conditions to avoid      |   |
| Conditions to avoid           | : Do not allow to dry.  |
|                               | No data available   |
| 10.5 Incompatible materials   |   |
| Materials to avoid            | : Acids<br>Bases<br>Oxidizing agents<br>Highly halogenated compounds  |
| 10.6 Hazardous decomposition  | on products   |
| Contact with water or hum air | id : This information is not available.   |
| Thermal decomposition         | : This information is not available.  |

### **SECTION 11: Toxicological information**

### 11.1 Information on toxicological effects

### Acute toxicity

Not classified based on available information.

### Components:

### aluminium powder (stabilised):

Acute inhalation toxicity : LC50 (Rat): > 5 mg/l Exposure time: 4 h

| Version | Revision Date: | SDS Number: | Print Date: 12.07.2022          |
|---------|----------------|-------------|---------------------------------|
| 2.3     | 11.07.2022     | 10200000301 | Date of first issue: 02.01.2014 |

Test atmosphere: dust/mist

### Skin corrosion/irritation Not classified based on available information. Serious eye damage/eye irritation Not classified based on available information. Respiratory or skin sensitisation Skin sensitisation Not classified based on available information. **Respiratory sensitisation** Not classified based on available information. Germ cell mutagenicity Not classified based on available information. Carcinogenicity Not classified based on available information. **Reproductive toxicity** Not classified based on available information. STOT - single exposure Not classified based on available information. **STOT - repeated exposure** Not classified based on available information. Aspiration toxicity Not classified based on available information. **Further information Product:** Remarks: No data available **SECTION 12: Ecological information**

### 12.1 Toxicity

No data available

### 12.2 Persistence and degradability

No data available

### **12.3 Bioaccumulative potential** No data available

**12.4 Mobility in soil** No data available

| Version | Revision Date: | SDS Number: | Print Date: 12.07.2022          |
|---------|----------------|-------------|---------------------------------|
| 2.3     | 11.07.2022     | 10200000301 | Date of first issue: 02.01.2014 |

### 12.5 Results of PBT and vPvB assessment

### Product:

Assessment

: This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher..

#### 12.6 Other adverse effects

Product:

| Additional ecological information | : | No data available |
|-----------------------------------|---|-------------------|
| information                       |   |                   |

### **SECTION 13: Disposal considerations**

| European Waste Catalogue<br>European Waste Catalogue | : | 12 01 04 - non-ferrous metal dust and particles<br>10 03 21 - other particulates and dust (including ball-mill dust)<br>containing hazardous substances |
|--|---|---|
| 13.1 Waste treatment methods<br>Product              | : | In accordance with local and national regulations.  |
| Contaminated packaging                               | : | Empty containers should be taken to an approved waste handling site for recycling or disposal. In accordance with local and national regulations.       |

### **SECTION 14: Transport information**

### 14.1 UN number

Not regulated as a dangerous good

### 14.2 UN proper shipping name

Not regulated as a dangerous good

### 14.3 Transport hazard class(es)

Not regulated as a dangerous good

### 14.4 Packing group

Not regulated as a dangerous good

### 14.5 Environmental hazards

Not regulated as a dangerous good

2

### 14.6 Special precautions for user

Remarks

Not classified as dangerous in the meaning of transport regulations.

| Version | Revision Date: | SDS Num  |
|---------|----------------|----------|
| 2.3     | 11.07.2022     | 10200000 |

ber: Print Date: 0301 Date of firs

Print Date: 12.07.2022 Date of first issue: 02.01.2014

### 14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

Not applicable for product as supplied.

### **SECTION 15: Regulatory information**

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

| REACH - Candidate List of Substances of Very High Concern for Authorisation (Article 59).  | : Not applicable  |  |
|--|---|--|
| Regulation (EC) No 1005/2009 on substances that deplete the ozone layer  | : Not applicable  |  |
| Regulation (EU) 2019/1021 on persistent organic pollutants (recast)  | : Not applicable  |  |
| UK REACH List of substances subject to authorisation (Annex XIV)   | : Not applicable  |  |
| REACH - Restrictions on the manufacture, placing on<br>the market and use of certain dangerous substances,<br>preparations and articles (Annex XVII) | : Conditions of restriction for the following entries should be considered: aluminium powder (stabilise (Number on list 40) |  |
