

## MASTERSAFE MP 11-20B Pigment Preparation for Film Applications

## MASTERSAFE MP 11-20B Pigment Preparation for Film Applications

ECKART's new metallic pigment preparation extends the product series of MASTERSAFE MP portfolio exhibiting extraordinary hiding power and opacity.

MASTERSAFE MP 11-20B is designed for applications that require high coverage and is tailored for colour concentrates dedicated for film and tape applications.

Target applications are film and tape applications like agricultural films, mulch films, blackout films, duct tapes, lubricant oil containers, etc.

### **MASTERSAFE MP 11-20B offers the following benefits:**

- Excellent hiding power
- Exceptional opacity
- Good silver metallic effect
- Dust-free processing
- Safe handling of metallic effect pigments
- Easy to disperse in many polymer systems

MASTERSAFE MP 11-20B can be used for numerous plastics processing such as extrusion, injection moulding, blow moulding, blown film or cast film extrusion.

MASTERSAFE MP 11-20B is suitable for polyolefins like LDPE, LLDPE, HDPE, PP and PS, MABS, etc.

MASTERSAFE Type	Pigment content	Particle size distribution approx. [µm]
MASTERSAFE MP 11-20 B	80%	D50 11
